

Pfeiffer Medical Center

Thank you for your interest in medical treatment at the Pfeiffer Medical Center. Since **we do not participate** in any health insurances, health insurance networks, Medicaid, Medicare, state or county medical assistance programs, we cannot accept assignment for insurance. Patients submit a copy of your itemized bill of services from your appointment to your individual insurance carrier for reimbursement of covered services. The following may assist you when speaking with your insurance company about coverage. As we do not accept insurance, **payment in full is due at time of service.**

Lakshmi Anubrolu, M.D.

Charges

The following are charges for the most common services and laboratory testing that may be performed at an initial or a follow-up visit. **This information is for insurance predetermination purposes only**; actual charges are based on the services provided and the laboratory testing ordered at the time of service. This is determined by medical necessity.

When using a credit card there is a 2.5% fee for processing. On an initial appointment there is an additional fee of \$20 and a follow up visit \$15. Please make note of this additional fee if using a credit card.

We provide very comprehensive lab work and those labs will be billed to your insurance from the lab. Follow-up labs are usually less and are determined by the practitioner depending on what they need to help design the nutrient program for the patient. **Please check with your insurance carrier to find out which lab is covered by your insurance and let us know at the time of the appointment. When checking with your lab, the labs consist of blood work and a urine test. They are routine labs.**

Uninsured patients: If you do not have insurance or you are an international patient, the lab will bill you for the labs. The labs could run \$700-\$1200. We will have you go to Labcorp or Quest to get the labs done.

HMO Insurance: If you have an HMO insurance plan, you can either check with your primary care provider to see if he or she would be willing to order the labs and send us the results, or we will have you go to Labcorp or Quest. (See Uninsured patients above for prices of the labs).

Initial Visit: (\$825)

99205	Office Visit w/ High Medical Decision Making	\$530.00
99354	Prolonged Professional Service, face-to-face	\$295.00
